

Field log - L01

Complete every required field | one printed page per candidate lake

Lake name: _____Date / operator: _____

Manager and collection condition: _____Weather: _____

Aqua TROLL ID / calibration: _____Turbidity ID / calibration: _____

Collections (WGS84; depth in m; conductivity in uS/cm)

ID	Time	Lat	Lon	Depth	Total	Temp C	Cond.	pH	DO mg/L	DO %	Turb.
L01-P1											
L01-P2											
L01-P3											
L01-P2-DUP											

Filtration, custody, and aliquots

ID	Filter time	Transport temp	Volume mL	Aliquots / destination	Notes
L01-P1					
L01-P2					
L01-P3					
L01-P2-DUP					

Collection depth: 0.30 m; if total depth is below 0.50 m, use mid-water and remain at least 0.10 m above sediment.
Do not enter the water. Keep the P2 duplicate independent. Record nutrient chemistry on the assay sheet.

Field log - L02

Complete every required field | one printed page per candidate lake

Lake name: _____Date / operator: _____

Manager and collection condition: _____Weather: _____

Aqua TROLL ID / calibration: _____Turbidity ID / calibration: _____

Collections (WGS84; depth in m; conductivity in uS/cm)

ID	Time	Lat	Lon	Depth	Total	Temp C	Cond.	pH	DO mg/L	DO %	Turb.
L02-P1											
L02-P2											
L02-P3											
L02-P2-DUP											

Filtration, custody, and aliquots

ID	Filter time	Transport temp	Volume mL	Aliquots / destination	Notes
L02-P1					
L02-P2					
L02-P3					
L02-P2-DUP					

Collection depth: 0.30 m; if total depth is below 0.50 m, use mid-water and remain at least 0.10 m above sediment.
Do not enter the water. Keep the P2 duplicate independent. Record nutrient chemistry on the assay sheet.

Field log - L03

Complete every required field | one printed page per candidate lake

Lake name: _____Date / operator: _____

Manager and collection condition: _____Weather: _____

Aqua TROLL ID / calibration: _____Turbidity ID / calibration: _____

Collections (WGS84; depth in m; conductivity in uS/cm)

ID	Time	Lat	Lon	Depth	Total	Temp C	Cond.	pH	DO mg/L	DO %	Turb.
L03-P1											
L03-P2											
L03-P3											
L03-P2-DUP											

Filtration, custody, and aliquots

ID	Filter time	Transport temp	Volume mL	Aliquots / destination	Notes
L03-P1					
L03-P2					
L03-P3					
L03-P2-DUP					

Collection depth: 0.30 m; if total depth is below 0.50 m, use mid-water and remain at least 0.10 m above sediment.
Do not enter the water. Keep the P2 duplicate independent. Record nutrient chemistry on the assay sheet.

Field log - L04

Complete every required field | one printed page per candidate lake

Lake name: _____Date / operator: _____

Manager and collection condition: _____Weather: _____

Aqua TROLL ID / calibration: _____Turbidity ID / calibration: _____

Collections (WGS84; depth in m; conductivity in uS/cm)

ID	Time	Lat	Lon	Depth	Total	Temp C	Cond.	pH	DO mg/L	DO %	Turb.
L04-P1											
L04-P2											
L04-P3											
L04-P2-DUP											

Filtration, custody, and aliquots

ID	Filter time	Transport temp	Volume mL	Aliquots / destination	Notes
L04-P1					
L04-P2					
L04-P3					
L04-P2-DUP					

Collection depth: 0.30 m; if total depth is below 0.50 m, use mid-water and remain at least 0.10 m above sediment.
Do not enter the water. Keep the P2 duplicate independent. Record nutrient chemistry on the assay sheet.

Field log - L05

Complete every required field | one printed page per candidate lake

Lake name: _____Date / operator: _____

Manager and collection condition: _____Weather: _____

Aqua TROLL ID / calibration: _____Turbidity ID / calibration: _____

Collections (WGS84; depth in m; conductivity in uS/cm)

ID	Time	Lat	Lon	Depth	Total	Temp C	Cond.	pH	DO mg/L	DO %	Turb.
L05-P1											
L05-P2											
L05-P3											
L05-P2-DUP											

Filtration, custody, and aliquots

ID	Filter time	Transport temp	Volume mL	Aliquots / destination	Notes
L05-P1					
L05-P2					
L05-P3					
L05-P2-DUP					

Collection depth: 0.30 m; if total depth is below 0.50 m, use mid-water and remain at least 0.10 m above sediment.
Do not enter the water. Keep the P2 duplicate independent. Record nutrient chemistry on the assay sheet.
